I want to change the grade mode of a class in my cart from Standard to Pass/Fail!

Grade Modes can be changed during the Enrollment Period by selecting the section to be changed from the Primary Cart.

After the Drop period has ended, a Petition for Grade Mode Change must be submitted using Path Forms in Path@Penn.

---

1. From Path@Penn, click Add/Drop/Swap classes under Academic Planning and Registration.
2. Click on Primary Cart.
3. Click on the desired course section to open the Course Details Panel. Registered courses have a black check mark.
4. Click the Edit Registration Options button.
5. Use the dropdown arrow next to Grade Mode in the Registration Options panel to select the desired Grade Mode.

When done, click Submit Schedule.

Speak with your academic advisor if you have any questions about policies for taking a class Pass/Fail.
