- Other – 3.7%
- Business – 2.5%

20%

went directly to graduate school

75%

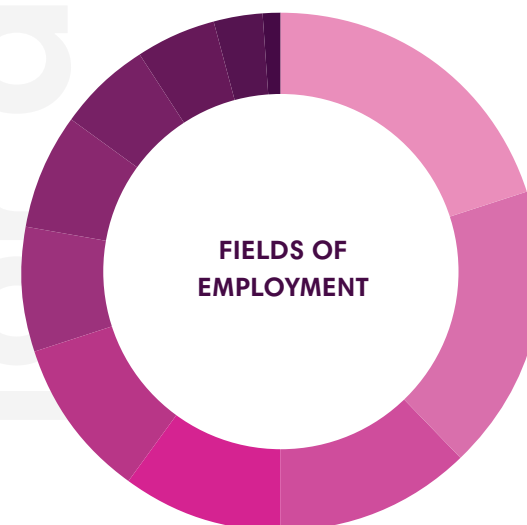

of alumni will go on to earn graduate degrees

TOP GRADUATE SCHOOLS

Penn, Harvard, NYU, Columbia, Georgetown, Temple, Duke, London School of Economics

A CONSTANTLY CHANGING WORLD requires you to draw on finely tuned and broadly acquired creative, analytical and communication skills in order to succeed. This makes an education from Penn’s College of Arts and Sciences invaluable, regardless of the path you eventually follow. Students who study areas that interest them tend to find greater happiness, accomplish more academically, and have more post-graduate options when they leave Penn. Evidence shows that there isn’t a direct correlation between particular majors and careers after Penn over the

long term. Employers are looking for broadly-educated people able to adapt and evolve, not over-specialization. During their undergraduate careers, students are able to leverage connections to those who have come before them through Penn’s robust alumni network. Penn alumni return to campus throughout the year to spend time with current students to discuss academic and professional goals through the College Alumni Mentoring Series, Fox Leadership Program and the Office of Career Services.

- Consulting – 18%
- Financial Services – 18%
- Education – 11.9%
